

357XP

Husqvarna 357XP is among our latest generation of professional saws. High power and rapid acceleration in combination with superior ergonomics, low vibration levels and a slim body ensure both effectiveness and less effort. A lightweight, effective and reliable saw for users with demanding professional needs. The XPG model has heated handles.

Air Injection

Centrifugal air cleaning system for longer intervals between filter cleans, smoother operation and reduced wear.

The two mass principle

Vibration dampening system with the handles isolated from the engine by steel springs.

Quick chain adjustments

Side-mounted chain tensioner makes chain adjustment quick and easy.

Snap-lock

Snap-lock cylinder cover saves time when changing spark plugs and cleaning.

Easy to work with

The slim body, high center of gravity and flat underside make our saws easy to work with.

Air filter compensation

Air filter compensation allows the engine to run even when the filter is clogged.

Technical data

Engine

Cylinder displacement	3.45 cu.inch / 56.5 cm ³
Maximum recommended engine speed	14 000 rpm
Fuel tank volume	1.44 US pint / 0.68l
Oil tank volume	0.80 US pint / 0.38l
Oil pump type	adjustable flow

Cutting equipment

Chain pitch	.325 / 3/8"
Recommended bar length	13-24" / 33-60 cm

Ergonomics

Sound level	101 dB(A)
Noise emissions, L _{noy, A}	114 dB(A)
Vibrations, front/rear handle	3.9 m/s ² / 4.2 m/s ²

Overall dimensions

Weight without cutting equipment	12.1 lbs / 5.5 kg

Advantages

- Advanced engine technology with high power, low weight and rapid acceleration for maximum performance.
- Automatic decompression valve which reduces required force when pulling the starter handle.
- Rubber suspension reduces vibrations in the carburettor, which provides smoother operation and longer product life.
- Forged three-piece crankshaft for maximum durability for the toughest applications.
- Combined choke/stop control makes the saw easier to start.
- Air filter with bayonet fitting makes the filter easy to remove for cleaning.
- Adjustable oil pump makes it easy to set the chain lubrication according to your needs.
- Eco-pump that stops the lubrication when idling.
- Angled front handle for better grip and natural working position.
- Double acting chain brake, right hand guard and chain catcher make the saw safer to use.
